

Indicator: combined gross enrolment ratio for primary, secondary and tertiary schools
Source: Unesco
Year of data: 2014 / MRYA
Target: 100%

The combined Gross enrolment ratio expresses the number of students enrolled in primary, secondary and tertiary levels of education, regardless of age, as a percentage of the population of official school age for the three levels. Since all students are included, regardless of age, the ratio can be more than 100%. This happens when students younger or older than the official school age are enrolled.
